In-Ear Monitoring

If it's possible we like to have two stagemonitors as a backup on stage. Please check our monitor-wishes:

- Drummer: Vocals, Keys, Sampler, Bass, Bassdrum, Snare & Toms
- Bassist: Vocals, Keys, Sampler, Bassdrum, Hi-Hat and a bit of the „Saal-Mikro“
- Keyboarder: Vocals, Sampler, Bass, and a bit of the „Saal-Mikro“
- Vocals 1 (Mr. Boom): Vocals, Bass, Keys, Sampler, and a bit of the „Saal-Mikro“
- Vocals 2 (Kitty Kat): see Vocals 1

Stage Order

- We only bring our instruments (drums, sampler, bass, keyboard), banner and our in-ears to the concert.
- PA and Lights have to fit the location (We like UV-Light /Black-Light: On our outfit and on the Bass we have neon things)
- We need 5 monitor-ways and enough electricity and cables on stage.
- Is it possible to put our banner in the back of the stage? (3m x 1m BxH) or can we beam it on a screen?

Catering

- 4 hot meals (we have 2 vegetarians)
- 1 box of still water, 1 box of malt beer/cola/juice
- Snacks and fruit

Other things

- We need a clean checkroom with a mirror, towels, table and chairs which we can LOCK
- Directly after the concert it has to be possible that we can transport our stuff on the shortest way to our car/bus
